## WEB- / GRAPHIC-DESIGNER (f/m) responsive web design

For the design and development of our responsive front-end projects, we are looking for a responsible and creative web designer with profound knowledge in graphic and html development. You have fun, let your creativity run wild and it inspires you to bring a team project to success. In addition, you feel at home in the responsive web world and you have already successfully implemented one or more projects to the absolute satisfaction of your colleagues and friends.

We are an international provider of eTourism solutions based in Neuss, Germany. With our product TourismSuite (R), we have a powerful tourist software solution / booking system, which is used in all our company-critical eCommerce projects.

### That's what we expect:

- ✓ Completed Bachelor or Master degree in media design, web development or equivalent
- ✓ Good handling with Photoshop and other graphic tools
- ✓ Professional knowledge in HTML5, CSS3, SASS
- ✓ A trained and critical eye for distances and design
- ✓ Excellent quality awareness, passion and teamwork

### That's what we offer:

- ✓ Attractive salary
- ✓ A highly motivated and effective team in a structured work environment
- ✓ Independent and responsible work
- ✓ Central and attractive location
- ✓ A lot of coffee, soft drinks, fresh fruits, table football, cereal-mix and more

### Ok, that fits and how do we find to each other?

Send your application with the earliest start date and your salary expectations to [jobs@tourismussuite.com](mailto:jobs@tourismussuite.com). We are looking forward to getting to know you.
